DATE.____

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Conowingo School No. 3 is on the southwest corner of the Pilot Town Crossroads. The main facade faces east, while the gable runs north/south.

The main school building is 1½ storys high and 3 bays across by two bays deep. A later addition, according to local residents, was added to the south and is 2 bays across by two deep. It continued the same gable. Presently the building is in a runinous state and probably won't remain standing, since it is a safety hazard.

The frame structure rests on an uncoursed stone foundation and is sheathed with weather boards. The wood shingle roof is of a medium slope and a stretcher bond exterior stove stack. A plain boxed cornice is found on the east and west sides and the eaves are extended on the gable ends. The fenestration has been altered and the sash windows have been removed. The school building was converted to a store.

The interior is made up of two rooms, the main school room to the north and a smaller room to the south. The interior has been vandalized. Exposed mortise and tenon joints prove the use of this tradition joining method as late as the third quarter of the 19th century.

STATEMENT OF SIGNIFICANCE

The Conowingo School No. 3 is in very poor shape and has been the target of vandalism a number of times. The structure had been used as a market after the one room school house was rendered obsolete. The school house was built between 1858 and 1877 since it was not on the Martenet Map (1858) and located on the Lake Atlas (1877). The schoolhouse and later store are obviously important buildings to a small town. The building will not remain much longer due to its decrepit state.

Pilot Town

CE-840, 842,843, 844, 845 (log house), 846, 847 (school no. 3), 848, 849 (store), 850, 851, 852, 853 (Johnson Victorian), 854, 855, 856, 857, 858, 859, 860, 861, 862, 863.

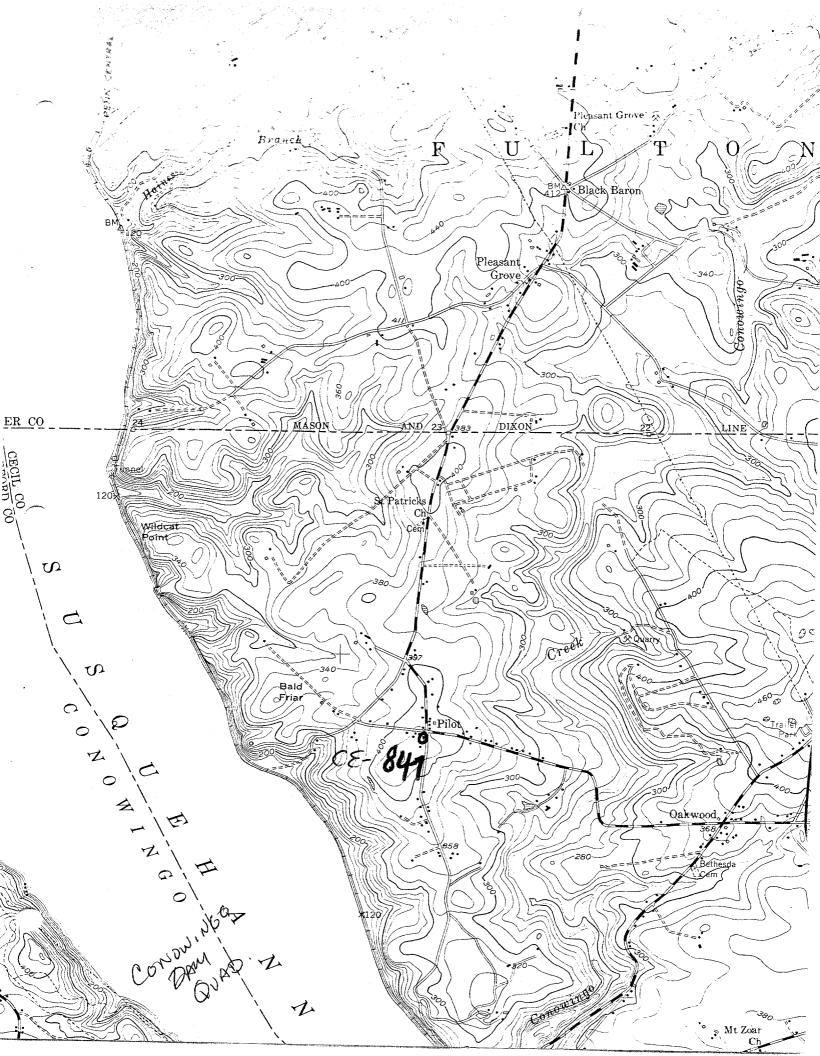

Pilot Town owes its existence to two primary reasons: The first is the 19th Century mining activity in the area and the second is the shift of the Susquehanna crossing from the Bald Friar ferry to the town of Conowingo. road from Pennsylvania to the Bald Friar ferry passed west of the present Pilot Town crossroads. It is obvious that this route predated any other southerly route in the vicinity especially since the earlier farms and houses are oriented to it. St. Patrick's Church (CE-834), Pembrace Farm (CE-836), Moore-Love log house (CE-845), and the Fulton-Alexander House (CE-841) all date from before the mid 19th Century and stand near or next to the earlier route. Due to the treacherous decent to the ferry and easier access at Conowingo a covered bridge was built across the Susquehanna at Conowingo, which eclipsed ativity at Bald Friar. With the construction of a bridge at Conowingo a more direct southerly route from Pennsylvania was needed, which necessitated an easterly shift in travel. It amounted to a difference of a few hundred yards but was enough to form an intersection with the east/west Mount Pleasant road. Continued interest in the mining of feldspar, soapstone, and gravel in the mid 19th Century brought more development and change. Pilot Town was a definite result of these two factors and the mid to late 19th Century housing that exists today is ample evidence for this occurrence. Pilot Town supported a local market till the early 20th Century (CE-849) and its own school (CE-847) till about the same time.

The houses that make up Pilot Town are traditional two Aframe structures that one sees throughout Cecil County. (see CE-840, CE-842, CE-844, CE-846,

Pilot Town

2

CE-848, CE-851, CE-852, CE-853, CE-854, CE-855, CE-856, CE-857, CE-858, CE-859, CE-860, CE-861, CE-862, CE-863) The structures are basically plain straightforward buildings that are typical houses for workers in a mining area. This is not to say that the previous agricultural life of area was replaced by the mines. The farming community continued as it had since the late 18th Century but now alongside mining operations that brought Irish immigrants in the early 19th Century.
